

Special Issue

Pelvic Floor Disorders: Emerging Perspectives on Therapeutic Approaches

Message from the Guest Editor

Pelvic floor disorders represent a growing global health challenge due to population aging, increased life expectancy, obesity, and the rising demand for improved quality of life among women worldwide. Research in this field is therefore both timely and highly significant for academia and clinical practice. This Special Issue aims to present and disseminate the most recent advances related to pelvic floor disorders, reconstructive pelvic surgery, and patient-reported outcomes. We consider contributions addressing innovative surgical techniques, comparative clinical studies, quality-of-life assessment, imaging and diagnostic tools, conservative and rehabilitative therapies, mesh-related research, robotic and minimally invasive surgery, and multidisciplinary approaches to pelvic floor dysfunction. About the Journal

Message from the Editor-in-Chief

Journal of Clinical Medicine (ISSN 2077-0383) is an international, peer-reviewed, open access journal dedicated to advancing clinical and preclinical research. Our Editorial Board and staff are committed to delivering cutting-edge, timely, peer-reviewed articles spanning the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and impactful research articles, as well as reviews that are clinically significant and relevant to the full spectrum of medical disciplines. All full texts are archived in PubMed Central and indexed in SCIE (Web of Science), Scopus, PubMed, and other major databases. We invite you to submit your manuscript for publication, as well as join our community as a reviewer or reader online.

Editors-in-Chief

Prof. Dr. Emmanuel Andr s

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.6 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2026).
