Oral and Maxillofacial Surgery: Current Trends, Innovations and Techniques

Message from the Guest Editors

Oral and maxillofacial surgery (OMFS) plays a pivotal role at the intersection of dentistry and medicine, addressing a wide range of conditions from facial trauma and congenital deformities to oncologic reconstruction and dental implantology. Recent advances in surgical techniques, imaging, biomaterials, and digital planning have significantly enhanced clinical outcomes and patient safety. This Special Issue, entitled “Oral and Maxillofacial Surgery: Current Trends, Innovations and Techniques”, aims to highlight contemporary developments and evidence-based practices in OMFS. We welcome contributions focused on minimally invasive procedures, virtual surgical planning, tissue engineering, robotics, and interdisciplinary treatment strategies. We invite the submission of original research articles, review articles, clinical studies, and comprehensive reviews that reflect the ongoing evolution of this dynamic surgical field and its integration into modern clinical care.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
