

Special Issue

Perioperative Management and Outcome of General and Abdominal Surgery

Message from the Guest Editor

It is a privilege for me to announce a Special Issue dedicated to the perioperative management and outcome of general and abdominal surgery. Not only good technical skills and a perfect operation are enough for a good outcome, but also good perioperative care for our patients. Perioperative management represents the practice of patient-centered, multidisciplinary, and integrated medical care for patients, starting from the moment of surgery planning and reaching the moment of discharge. It includes a set of therapeutic measures administered in such a way as to improve the general health and status of the patient, lower the anxiety of the patient, prevent deep vein thrombosis and pulmonary embolism, prevent surgical site infection, ensure or even speed a good recovery for the patient, enhance their well-being, and shorten the length of their hospital stay. The focus of this Special Issue is on every aspect of perioperative care and how it may influence the outcome. Any submission, such as reviews or original articles on the aforementioned aspects, is welcome. We look forward to receiving your contributions.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
