

Special Issue

New Technologies and Translational Approach for an Early Diagnosis of Bipolar Spectrum and Hyperactive and Novelty Seeking Profiles

Message from the Guest Editors

This Special Issue aims to gather contributions in the area of research we have thus defined. In particular, because of the preventive importance of being able to identify conditions at risk of developing bipolar disorder, this contribution aims to gather information on new genetic, laboratory, and more generally diagnostic techniques that may make it possible to identify the risk area, described by the above-mentioned new line of research, of future bipolar disorder. Contributors are welcome to use the formats of an original research article, brief research report, systematic review, review, mini-review, policy and practice review, hypothesis and theory, perspective, case report, community case study, general commentary, or opinion.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
