

Special Issue

Innovations in the Treatment for Depression and Anxiety

Message from the Guest Editor

We are very delighted to cordially invite you to contribute to our upcoming Special Issue titled “Innovations in the Treatment for Depression and Anxiety”, which seeks to address some of the most exciting and pressing challenges in the management of these widespread mental health conditions. Depression and anxiety continue to impose significant burdens on individuals and families, as well as healthcare and socioeconomic systems worldwide. Despite advances in understanding their underlying mechanisms, clinical manifestations, and treatments, insufficient symptom relief and the need for more personalized and accessible care remain critical issues. This Special Issue aims to explore novel approaches and interdisciplinary strategies that hold promise for overcoming these barriers

Guest Editor

Dr. Lucie Bartova

Department of Psychiatry and Psychotherapy, Medical University of Vienna, Vienna, Austria

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
