

## Special Issue

# Pediatric Nephrology: Advances in the Diagnosis and Management of Pediatric Kidney Disorders

### Message from the Guest Editors

Dear colleagues, Pediatric kidney disorders refer to various conditions, sudden or chronic, including congenital abnormalities of the kidney and urinary tract, glomerulopathies, or tubulo-interstitial diseases. They may have different background, but nevertheless, most are at risk of chronic kidney disease. That is why achieving the right diagnosis, enabling early interventions, is crucial. One of the major developments is the search for biomarkers, which are useful in the early diagnosis and treatment of kidney problems.

These potential biomarkers seem to have moved from research to clinical use, aiding in the early detection and monitoring of several kidney diseases, especially acute kidney injury. In renal replacement therapy there are improved dialysis machines for newborns and preterm infants. This Special Issue seeks contributions elucidating mechanistic insights, diagnostic innovations, and therapeutic advances in pediatric nephrology. Submissions of reviews and original research articles are invited, with particular emphasis on the interdisciplinary integration of molecular diagnostics, biomarker science, and precision therapeutics.

---

### Guest Editors

Dr. Agnieszka Rybi-Szumińska

Department of Pediatrics and Nephrology, Medical University of Białystok, 15-274 Białystok, Poland

Prof. Dr. Anna Maria Wasilewska

Pediatric & Nephrology Department, Medical University of Białystok, Białystok, Poland

---

### Deadline for manuscript submissions

15 January 2026

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andr s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, University of  
Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1  
(General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
