# Clinical Advances in the Diagnosis and Treatment of Atrial Fibrillation

### Message from the Guest Editor

The prevalence of atrial fibrillation (AF) increases with age, affecting over 28% of patients > 85 years. However, there have been significant advancements in both the diagnosis and treatment of this condition over recent years.

Furthermore, there has been a growing focus on personalized treatment approaches. This involves tailoring interventions based on individual risk profiles and underlying conditions, improving patient outcomes and reducing the burden of AF on healthcare systems. These clinical advances have significantly contributed to a more effective and efficient management of atrial fibrillation.

- atrial fibrillation
- early detection
- treatment strategies
- personalized treatment approaches

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
