Advances in Primary Sclerosing Cholangitis: Pathogenesis, Diagnosis and Emerging Therapies

Message from the Guest Editors

Primary sclerosing cholangitis (PSC) is a chronic cholestatic liver disease characterized by progressive inflammation and fibrosis of the bile ducts, leading to biliary cirrhosis, liver failure, and an increased risk of cholangiocarcinoma. Despite extensive research, the pathogenesis of PSC remains incompletely understood, and effective therapies are lacking. This Special Issue aims to explore recent advances in the understanding of PSC, including genetic and immunological mechanisms, microbiome interactions, and novel diagnostic biomarkers. We also welcome studies on emerging therapeutic strategies. Contributions may include original research and reviews that provide new insights into disease mechanisms, innovative imaging techniques, and patient management strategies. This Special Issue aims to improve our understanding of PSC and support the development of better treatments. We encourage you to submit your work and contribute to the ongoing efforts to improve outcomes for patients with PSC.

Guest Editors

Dr. Konstantinos H. Katsanos

Department of Gastroenterology, University Hospital of Ioannina, 455 00 Ioannina, Greece

Dr. Fotios S. Fousekis

Department of Gastroenterology and Hepatology, University of Ioannina, Ioannina, Greece

About the Journal

Message from the Editorial Board

Journal of Clinical Medicine (ISSN 2077-0383) is an international, peer-reviewed, open access journal dedicated to advancing clinical and preclinical research. Our Editorial Board and staff are committed to delivering cutting-edge, timely, peer-reviewed articles spanning the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and impactful research articles, as well as reviews that are clinically significant and relevant to the full spectrum of medical disciplines. All full texts are archived in PubMed Central and indexed in SCIE (Web of Science), Scopus, PubMed, and other major databases. We invite you to submit your manuscript for publication, as well as join our community as a reviewer or reader online.

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
