

## Special Issue

# Advancements in Diagnosis and Management of Hypertrophic Cardiomyopathy and Amyloidosis

### Message from the Guest Editor

This Special Issue delves into the latest developments in the diagnosis and management of two significant cardiovascular disorders: hypertrophic cardiomyopathy (HCM) and amyloidosis. HCM is characterized by abnormal thickening of the heart muscle, while amyloidosis involves the accumulation of amyloid proteins in various organs, including the heart. The 100-word summary highlights the emerging diagnostic techniques, therapeutic interventions, and prognostic factors for these conditions. Key topics include genetic testing, imaging modalities, risk stratification, novel treatment options, and the impact of early detection on patient outcomes. The aim is to provide clinicians and researchers with a comprehensive understanding of HCM and amyloidosis to enhance patient care and improve long-term prognosis.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
