Prostate Cancer: Recent Advances in Diagnostics and Treatment Planning—Part II

Message from the Guest Editor

Due to the success and impact of the Special Issue, "Prostate Cancer: Recent Advances in Diagnostics and Treatment Planning"

(https://www.mdpi.com/journal/jcm/special_issues/Prostate_Cancer_JCM), the editors of JCM have decided to announce a second Special Issue. Prostate cancer (PCa) is the second most frequent malignancy observed in men. The tumors vary in terms of aggressiveness, ranging from non-aggressive tumors that can be safely monitored to tumors with a poor prognosis that are only suited to palliative treatment. Using contemporary imaging methods, biomarkers, and nomograms, precise stratification, particularly of the most clinically heterogeneous portion of the tumors of intermediate-risk patients, provides a better framework for their management. The aim of this Special Issue of the Journal of Clinical Medicine is to provide new insights into PCa, focusing on advances in diagnostics and treatment planning.

Guest Editor

Dr. Theodoros Tokas

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
