Clinical Application of Biomarkers in Cancers

Message from the Guest Editor

The clinical application of biomarkers in cancer represents a rapidly evolving field that offers significant potential for improving diagnosis, prognosis and treatment strategies. Biomarkers, which can be genetic, proteomic or metabolic indicators, provide critical insights into the molecular mechanisms underlying various cancers. It is important to discuss key biomarkers in major cancers, highlighting their clinical utility. Additionally, exploring the integration of advanced technologies can demonstrate how these innovations improve biomarker discovery and application. The aim of this Special Issue is to highlight recent advances in the current landscape of cancer biomarkers, emphasizing their role in early detection, personalized therapy and monitoring disease progression. We encourage colleagues to share their scientific achievements through original research and review manuscripts that underscore the transformative impact of biomarkers in oncology, paving the way for more targeted and effective cancer care.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
