Cardiac Imaging: Current Applications and Future Perspectives

Message from the Guest Editors

The field of cardiac imaging has seen remarkable advancements, drastically transforming the landscape of both diagnosis and management of cardiovascular conditions. Contemporary imaging modalities, including advanced echocardiography, cardiac magnetic resonance, computed tomography, and nuclear imaging, have revolutionized our approach to cardiac care. This Special Issue, entitled “Cardiac Imaging: Current Applications and Future Perspectives”, aims to collect these developments and provide novel insights into their clinical applications. Authors are invited to contribute both original research articles and in-depth reviews that shed light on the multifaceted aspects of cardiac imaging, including emerging technological advances and their impact on diagnostic precision, patient outcomes, and optimized clinical workflows. We hope that this Special Issue will represent a useful resource for clinicians, researchers, and healthcare professionals dedicated to cardiac healthcare innovation.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
