

## Special Issue

# Advancements in Venous Disease Management: From Conservative to Interventional Treatments

### Message from the Guest Editors

This Special Issue aims to explore the significant advancements in venous disease management, highlighting the transition from traditional conservative approaches to innovative interventional techniques. Cutting-edge technologies, evidence summaries, and new insights from lifestyle modifications, compression therapies, pharmacological interventions, and endovascular techniques for both superficial and deep venous systems will be welcome as part of this special article collection. Moreover, advancements in imaging technologies, particularly duplex ultrasound, computed tomography angiography, and intravascular ultrasound technology, have enhanced diagnostic accuracy, facilitating the development of tailored treatment plans. This issue will feature original research and reviews that examine the plethora of conservative and interventional strategies, aiming to optimize patient outcomes. As research continues to evolve, the future of venous disease management promises refined techniques and interdisciplinary approaches, underscoring the importance of comprehensive care that addresses both the physical and psychological impacts of venous disorders.

### Guest Editors

Dr. Daniele Bissacco

Department of Clinical Sciences and Community Health, University of Milan, Milan, Italy

Dr. Chiara Lomazzi

Vascular Surgery Unit, IRCCS Ca' Granda Ospedale Maggiore Policlinico, Milan, Italy

### Deadline for manuscript submissions

30 September 2025

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1  
(General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
