

## Special Issue

# Clinical Research on Pulmonary Hypertension and Its Complications

### Message from the Guest Editors

Pulmonary hypertension (PH) is characterized by the elevation of pulmonary arterial pressure and affects around 1% of the world's population. Based on their etiology, five clinical groups have been identified, each representing different diagnostic and therapeutic challenges. In the last two decades, there have been significant advances in the management of PH; however, several questions remain unanswered, requiring further research. To this end, we would like to invite innovative original research papers in the field of PH for this Special Issue. Clinical research as well as basic research papers with a strong translational aspect will be considered. Our aim is to present the most recent advances relating to PH and to address topics of high interest, in order to contribute to a better understanding of the disease and, ultimately, to improved patient management. We look forward to your submissions!

---

### Guest Editors

Dr. Gabor G. Kovacs

Division of Pneumology, Department of Internal Medicine, Medical University of Graz, 8036 Graz, Austria

Dr. Anna Birnhuber

Otto Loewi Research Center, Lung Research Cluster, Medical University of Graz, Graz, Austria

---

### Deadline for manuscript submissions

20 April 2026

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
