

Special Issue

Acute Trauma and Trauma Care in Orthopedics

Message from the Guest Editors

Orthopedics and trauma surgery are clinically challenging, and they deal with injuries and related diseases of the musculoskeletal system, which can be caused by trauma, accidents, sports injuries, degenerative diseases, infections, tumors, and congenital diseases. We have seen developments in all aspects of orthopedic surgery, using both invasive procedures and non-invasive and non-surgical methods to correct and treat disease. Common orthopedic problems include knee osteoarthritis, spinal deformities, and a variety of different sports injuries. Since these health conditions can greatly affect a person's quality of life, it is important for patients to receive a high level of treatment by an experienced physician. Consequently, there is also an increasing need for interdisciplinary treatment strategies, as these patients often present with underlying comorbidities that could have led to the injury itself, and thus require specific treatment. This Special Issue combines original research and review papers with a focus on the recent advances in orthopedic and trauma surgery. We welcome the submissions of your best research.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi
