

## Special Issue

# Acute Kidney Injury Due to Numerous Etiologies

### Message from the Guest Editor

Acute kidney injury (AKI) is a serious, sometimes life-threatening, clinical complication. Although some causes of AKI are known, there are numerous states that may result in kidney injury. AKI may lead to chronic kidney disease, and in some cases, to end-stage renal disease with renal replacement therapy requirement. This Special Issue is aimed at presenting different causes of AKI, including injuries, surgical procedures, glomerulopathies, vasculitis, cardiovascular diseases, and others. It also aims to present cases of AKI related to multiple organ injuries due to mass events. The early treatment of AKI may prevent the development of chronic kidney disease and other complications of renal failure, which is why it is crucial to know about numerous causes of kidney injury and different methods of AKI treatment. A diverse range of articles included in this Special Issue would allow us to better understand the problem of AKI.

### Guest Editor

Prof. Dr. Stanisław Niemczyk

Department of Internal Medicine, Nephrology and Dialysis, Military Institute of Medicine, Szaserów Street 128, 04-141 Warsaw, Poland

### Deadline for manuscript submissions

closed (31 August 2024)

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
