Clinical Challenges in Obstetrics and Gynecology: Interactions Between Gynecological and Obstetric Disorders, Quality of Life, and Mental Health in Women

Message from the Guest Editors

This Special Issue of the *Journal of Clinical Medicine* focuses on the complex interactions between gynecological and obstetric disorders, and their profound impact on the quality of life and mental health in women. Despite advancements in clinical care, significant challenges remain in understanding and managing the bidirectional relationship between physical health and psychological well-being in these patients. This Special Issue aims to address core problems such as the lack of comprehensive research on how these disorders influence mental health, and vice versa, as well as the implications for patient care. The scope of this Special Issue includes original research, reviews, and clinical studies. Contributions that investigate innovative approaches to diagnosis, treatment, and patient support are particularly encouraged, either in obstetrics, regarding perinatal mental health, or in gynecology, including sexual disorders. Through this Special Issue, we seek to mobilize the scientific community to enhance our understanding of these critical interactions, ultimately improving patient outcomes and quality of life.

About the Journal

Message from the Editorial Board

Journal of Clinical Medicine (ISSN 2077-0383) is an international, peer-reviewed, open access journal dedicated to advancing clinical and preclinical research. Our Editorial Board and staff are committed to delivering cutting-edge, timely, peer-reviewed articles spanning the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and impactful research articles, as well as reviews that are clinically significant and relevant to the full spectrum of medical disciplines. All full texts are archived in PubMed Central and indexed in SCIE (Web of Science), Scopus, PubMed, and other major databases. We invite you to submit your manuscript for publication, as well as join our community as a reviewer or reader online.

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France
