Abdominal Surgery: Clinical Updates and Perspectives

Message from the Guest Editor

Abdominal surgery includes most general surgery, but also specialized branches such as urology, gynecology, and vascular surgery. Systems and organs have close relationships of proximity and interconnection—functional, or only for the support structures. The surgical approach has changed over the years, including new surgical techniques and new technological approaches such as laparoscopy, robotics and interventional radiology. These advances contribute to the improvement of the results in the treatment of diseases, but also in the improvement of patient comfort in terms of the reduction of hospitalization and potential complications. The best specialists involved daily in the surgical treatment of the abdominal and pelvic organs are the most enthusiastic in presenting their essential experience.

Guest Editor

Dr. Fabio Campodonico

Urology Unit, Department of Abdominal Surgery, E.O. Galliera Hospital, Genova, Italy

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
