

## Special Issue

# Clinical Rehabilitation Strategies and Exercise for Stroke Recovery

### Message from the Guest Editor

This Special Issue aims to highlight recent advancements in stroke rehabilitation and exercise science, inviting studies and reviews that explore novel therapeutic techniques, biomarkers of recovery, predictive models of rehabilitation outcomes, and the mechanisms underlying neuroplasticity and functional restoration. Contributions that integrate clinical, neurobiological, and technological perspectives are especially encouraged.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
