

Special Issue

Novel Treatment Strategies for Psoriasis

Message from the Guest Editor

The past two decades have witnessed unprecedented advances in our management of psoriasis. Therefore, we are pleased to introduce this new Special Issue, "Novel Treatment Strategies for Psoriasis". This collection delves into the complexities of this chronic inflammatory skin condition, offering a platform for a comprehensive exploration of its clinical manifestations, treatments, and emerging research. We wish to bring together a diverse array of research studies, clinical insights, and expert perspectives from leading dermatologists, researchers, and healthcare professionals in this Special Issue. This Special Issue aims to foster a deeper understanding of psoriasis with a particular emphasis on its current management in different clinical scenarios.

Guest Editor

Dr. Vito Di Lernia

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
