

Special Issue

Skin Cancer: Prevention, Diagnosis and Treatment

Message from the Guest Editors

Skin cancer incidence is increasing. Different forms of skin cancer include melanoma, basal cell carcinoma, and squamous cell carcinoma, each with varying degrees of severity and treatment requirements. The economic impact of skin cancer is substantial, as it involves not only the direct expenses associated with diagnosis and treatment, but also the long-term management of survivors and the prevention efforts required to reduce its incidence. Skin cancer can significantly impact the quality of life of individuals, as it may lead to physical discomfort, disfigurement, emotional distress, and limitations in daily activities due to the disease itself or the necessary treatments. The treatment outcomes are important as new treatments emerge that need to be administered to patients on the grounds of sufficient evidence. Accordingly, a Special Issue called “Skin Cancer: Prevention, Diagnosis and Treatment” is announced. This Special Issue calls for original research and systematic reviews that investigate clinical, dermoscopic, diagnostic, or therapeutic features of skin cancers and their impact on the quality of life of affected patients.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
