Cerebrovascular and Skull Base Surgery: Current Status and Future Perspective

Message from the Guest Editor

The field of cerebrovascular and skull base surgery has witnessed remarkable advancements in recent years, transforming the diagnosis and treatment of complex brain pathologies. To capture the latest developments and shed light on future perspectives, this Special Issue aims to provide a comprehensive overview of the current status and emerging trends in these specialized areas. The primary aim of this Special Issue is to reflect current research and address the core problems faced in cerebrovascular and skull base surgery. With advancements in surgical techniques, imaging modalities, and perioperative management, there is a need to evaluate the effectiveness and safety of these approaches, as well as identify areas for further improvement. By gathering diverse perspectives and experiences, this Special Issue will contribute to advancing the field of cerebrovascular and skull base surgery and improving patient outcomes.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
