

## Special Issue

# Evolution of Aortic Surgery: Advancements, Challenges, and Patient Benefits

### Message from the Guest Editors

This Special Issue is dedicated to exploring the future and evolution of aortic surgery, with a particular emphasis on minimally invasive surgery. The proposed issue aims to highlight the importance and interest of this topic to the medical community. The guest editor for this issue is Dr. Risteski, an internationally recognized minimally invasive surgeon with specialization in aortic surgery. The issue will delve into the latest advancements and technologies in minimally invasive aortic surgery, as well as the challenges and opportunities presented by this approach. The authors will also discuss the benefits of minimally invasive surgery for patients, including reduced pain, shorter hospital stays, and faster recovery times. This Special Issue is an opportunity for medical professionals to share their expertise and insights on this important topic and contribute to the ongoing evolution of aortic surgery.
