

Special Issue

Breast Cancer: Symptoms, Types, Causes & Treatment

Message from the Guest Editors

This special journal issue will focus on the diverse experiences of breast cancer treatment and survivorship across the age spectrum, examining how age at diagnosis shapes clinical decision-making, treatment outcomes, and quality of life post-treatment. From the unique reproductive and psychosocial concerns of young women to the comorbidities and functional limitations faced by older adults, age plays a critical role in influencing therapeutic approaches, patient priorities, and survivorship trajectories. In this Special Issue, titled “Breast Cancer: Symptoms, Types, Causes & Treatment”, we seek to provide insights into the latest research in various factors contributing to age-related disparities in care and outcomes, with the goal of advancing more tailored, equitable strategies in breast cancer management across the lifespan.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
