

Special Issue

Clinical Advances in Corneal and Ocular Surface Surgery

Message from the Guest Editor

It is a pleasure to announce the coming Special Issue of *Journal of Clinical Medicine* on “Clinical Advances in Corneal and Ocular Surface Surgery”. Corneal disease is a leading cause of blindness affecting up to 12 million people worldwide. Corneal transplantation is the standard surgical management for advanced corneal diseases, representing the most frequently performed transplant procedure. In recent years, surgical techniques have evolved from full-thickness penetrating keratoplasty to lamellar grafts replacing only some layers of the cornea. In parallel, ocular surface reconstruction procedures via regenerative medicine are emerging as novel treatment methods for severe ocular surface disorders. Finally, new technological and cell-based alternatives to conventional keratoplasty are under study to overcome the shortage of donor corneas. For this Special Issue, we invite researchers and clinicians to submit studies on corneal and ocular surface surgery, including issues related to corneal transplantation, eye banking, ocular surface diseases, and anterior segment imaging. Original research papers and review articles are welcome.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
