

Special Issue

Otolaryngology—Head and Neck Surgery: Current Trends and Challenges

Message from the Guest Editors

The treatment of head and neck disorders is increasingly shifting toward minimally invasive surgery across various specialties, including airway surgery, ear surgery, and salivary gland surgery. This evolving approach emphasizes collaborative, multidisciplinary efforts involving both anesthesiologists and surgeons, who work together to ensure a thorough diagnostic evaluation for patients. Technological advancements, particularly in visualization tools such as 4K endoscopy, 3D 4K exoscopy, and novel image-guided surgery, have enabled the transition from traditional invasive techniques to less invasive methods for managing otorhinolaryngological conditions in both children and adults. To deepen our understanding of these advancements, we invite authors to contribute to a Special Issue of the PubMed-indexed *Journal of Clinical Medicine* focusing on the pathogenesis, diagnosis, and treatment of head and neck disorders. By gathering research and insights on these topics, we will continue improving the care provided to patients with otorhinolaryngological conditions.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
