

## Special Issue

# Myocardial Infarction: Clinical Management and Future Options

### Message from the Guest Editor

While the clinical management of myocardial infarction has advanced in recent years, its mortality and morbidity are still high, especially in myocardial infarction with cardiogenic shock. Clinical management of this condition includes primary percutaneous coronary interventions, mechanical cardiac support devices, intensive care unit management, and optimal medical therapy. Although an increasing amount of clinical research is being published, there is still room for new research into how to improve the clinical outcomes of patients with myocardial infarction. The aim of this Special Issue is to provide a comprehensive overview of the advances in the clinical management and future options in myocardial infarction. Therefore, researchers in the field of myocardial infarction are encouraged to submit their findings to this Special Issue as original articles or reviews. All topics associated with the clinical management of myocardial infarction are welcome.

### Guest Editor

Prof. Dr. Kenichi Sakakura

Division of Cardiovascular Medicine, Saitama Medical Center, Jichi Medical University, 1-847 Amanuma, Omiya, Saitama City 330-8503, Japan

### Deadline for manuscript submissions

25 December 2025

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
