

## Special Issue

# Clinical Applications of Endoscopic Technology in Pancreaticobiliary Disease

### Message from the Guest Editor

There have been numerous advances in the area of pancreaticobiliary endoscopy since the turn of this century, leading to improved patient outcomes. This includes advances in access to the pancreaticobiliary tree, as well as diagnostic and therapeutic interventions. The direct access to the bile duct and pancreatic duct, when ERCP fails, using endoscopic ultrasound guidance has become common practice such that IR-guided percutaneous biliary drainage is rarely needed in centers where interventional endoscopists are available. Similarly, gall bladder drainage using EUS guidance is replacing percutaneous cholecystostomy in patients with acute cholecystitis who are not deemed surgical candidates. Our diagnostic skills have also improved due to advances in single operator cholangioscopy and pancreatoscopy with diagnostic and interventional tools. This Special Issue focuses on the application of endoscopic technology in pancreaticobiliary diseases. Most sincerely,

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
