Chronic Kidney Disease: Clinical Challenges and Management

Message from the Guest Editors

Chronic kidney disease (CKD) is a devastating disease which progresses to end-stage renal disease (ESRD) and has a large impact on prognosis in CKD patients via concomitant atherosclerotic cardiovascular diseases, malnutrition, inflammation, malignancy, etc. Previous large clinical trials have shown that drugs, including angiotensin converting enzyme inhibitors (ACEi), angiotensin type II receptor blockers (ARBs), SGLT2 inhibitors, and mineral corticoid receptor antagonists (MRAs), retard the progression of CKD. However, the results are still not optimal, leading to an increase in dialysis patients worldwide. Based on the abovementioned background, we introduce this Special Issue, entitled “Chronic Kidney Disease: Clinical Challenges and Management”, in the *Journal of Clinical Medicine*. As of this Special Issue, we invite submissions focused on treatment approaches (even if challenging and/or small clinical trials), observational research, and trials conducted by specialists in the fields of nursing, nutrition, rehabilitation, pharmacies, and multidisciplinary team approaches for CKD and comorbid diseases.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
