Clinical Advances in Diagnosis and Treatment of Cerebrovascular Diseases

Message from the Guest Editors

We hope in this Special Issue to delve deep into cerebrovascular research, spotlighting seminal advancements in both diagnosis and therapeutic modalities. Our goal is to provide readers with a detailed overview of key clinical discoveries and emerging research areas, covering new diagnostic imaging, advanced treatment methods, and significant progress in translational science.

We eagerly anticipate contributions that elucidate ischemic and hemorrhagic pathologies, as well as arterio-venous anomalies. This Special Issue entitled “Clinical Advances in Diagnosis and Treatment of Cerebrovascular Diseases” aims to present the most contemporary knowledge, enhancing evidence-based clinical practice.

- cerebrovascular disease
- diagnostic imaging
- ischemic stroke
- hemorrhagic stroke
- arterio-venous anomalies
- endovascular interventions
- Artificial Intelligence in healthcare

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
