

Special Issue

Current State of Breast Reconstruction

Message from the Guest Editor

We are pleased to announce a Special Issue of the *Journal of Clinical Medicine* titled “Current State of Breast Reconstruction”, dedicated to exploring advancements and challenges in breast reconstruction techniques. With the growing demand for both implant-based and autologous tissue reconstruction, this issue aims to provide a comprehensive overview of the latest developments in surgical techniques, including the use of acellular dermal matrix (ADM), and methods to enhance patient outcomes. We invite submissions focusing on innovative approaches to improve surgical precision and minimize complications. Studies on techniques to optimize the use of ADM in reconstruction, as well as research on reducing common complications such as infections, seromas, and capsular contracture, are particularly welcome. This Special Issue seeks to serve as a platform for clinicians and researchers to share knowledge and contribute to the evolving landscape of breast reconstruction, ultimately improving patient outcomes in breast cancer recovery.

Guest Editor

Dr. Il-Kug Kim

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67081
