

Special Issue

Breast MRI: An Update

Message from the Guest Editors

Breast MRI has become a cornerstone in breast imaging, offering unparalleled sensitivity for the detection and characterization of breast lesions. This Special Issue, *Breast MRI: An Update*, will provide an in-depth overview of recent advances in breast MRI techniques, clinical applications, and emerging technologies. Topics of interest include abbreviated protocols, diffusion-weighted imaging, contrast-enhanced sequences, artificial intelligence applications, and the role of MRI in high-risk screening, preoperative staging, and treatment monitoring. The Issue aims to critically assess the evolving evidence, discuss technical and clinical challenges, and explore future directions for breast MRI in both screening and diagnostic settings.

Guest Editors

Dr. Filippo Pesapane

Breast Imaging Unit, European Institute of Oncology (IEO), 20141 Milan, Italy

Dr. Anna Rotili

Breast Imaging Division, IEO European Institute of Oncology IRCCS, Milan, Italy

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
