Plastic and Reconstructive Surgery: Cutting-Edge Expert Perspective

Message from the Guest Editors

The evolution of reconstructive and aesthetic plastic surgery over the past 50 years has been truly remarkable. All areas of this discipline have inevitably undergone continuous growth and increasing specialization, while technological advancements have profoundly impacted millions of professionals worldwide. Research into prosthetic devices, flap, and lymphatic microsurgery has driven progress to the point where procedures once considered unthinkable 20 years ago are now possible—thanks also to improvements in anesthetic techniques for pain control and the management of critically ill patients or those undergoing highly invasive procedures. The refinement of surgical techniques now significantly involves other fields of medicine as well, such as tumor immunobiology, trauma care, and many others. This Special Issue aims to explore the evolution of reconstructive plastic surgery from a cross-disciplinary perspective, with a focus on the most recent innovations that have shaped this field.

Guest Editors

Dr. Roberto Cuomo

Plastic and Reconstructive Surgery Unit, Department of Medicine, Surgery and Neuroscience, University of Siena, Siena, Italy

Dr. Ishith Seth

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
