

## Special Issue

# Neuro-Psychiatric Disorders: Updates on Diagnosis and Treatment

### Message from the Guest Editor

Neuropsychiatric disorders are specific, clinically diagnosed conditions with poorly defined neurobiological bases. They greatly affect an individual's thoughts, perceptions, emotions, and/or overt behavior and may lead to loss of functioning and severe distress. Recent advances in genome research and neuroimaging have led to considerable advances in our understanding of the hereditary and acquired factors related to the etiopathology of those disorders. Hence, we are slowly starting to be able to more precisely link the underlying pathology to the overt clinical signs, helping us to provide an accurate diagnosis and an effective therapeutic plan. This Special Issue aims to present the latest advances in the diagnostic domain and how they relate to the provision of better treatment options for the benefit of our patients.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of  
Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPLus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
