Clinical Updates of Diagnosis and Treatment in Chronic Kidney Disease (CKD)

Message from the Guest Editors

Chronic kidney disease (CKD) represents a growing global health challenge, affecting approximately 15% of the population and contributing significantly to morbidity and mortality. Its close association with comorbidities such as diabetes, hypertension, and mineral as well as bone disorders, in addition to its role as a major cardiovascular risk factor from the early stages of the disease, underscore the need for early and effective diagnosis as well as clinical intervention. The aim of this Special Issue of the *Journal of Clinical Medicine* is to showcase cutting-edge research and comprehensive reviews focused on the diagnosis and management of CKD without renal replacement therapy across its full clinical aspects. We welcome submissions addressing key areas, including, but not limited to, hypertensive and diabetic kidney disease, cardiorenal syndrome, glomerulonephritis, and genetic renal diseases.

Guest Editors

Dr. Juan F. Navarro-González

Dr. Carmen Mora-Fernández

Dr. Javier Donate-Correa

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi
