Presbyopia, Laser, Cataract and Refractive Surgery: State-of-the-Art Research: Second Edition

Message from the Guest Editor

Presbyopia, cataract, and refractive disorders continue to represent major challenges in ophthalmology, while also driving some of the most dynamic innovations in surgical vision correction. Advances in femtosecond laser technology, premium intraocular lenses, and novel corneal and phakic lens-based procedures are rapidly expanding treatment options and improving patient-centered outcomes. At the same time, research in ocular biomechanics, optical performance, and visual quality is shaping the future of individualized care. With this Special Issue, *"Presbyopia, Laser, Cataract and Refractive Surgery: State-of-the-Art Research: Second Edition"*, we invite clinicians and researchers to contribute their latest findings and perspectives. Original research articles, clinical studies, systematic reviews, and state-of-the-art updates are welcome. We particularly encourage submissions addressing new surgical techniques, long-term outcomes, patient-reported quality of life, and translational approaches that bridge basic science and clinical practice.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
