

Special Issue

Clinical Management of Bladder Cancer

Message from the Guest Editors

Bladder cancer remains a significant global health challenge, with its incidence and mortality rates necessitating continuous advancements in diagnosis, treatment, and long-term management. Recent innovations in surgical techniques, systemic therapies, and personalized medicine have reshaped the therapeutic landscape, improving survival outcomes and quality of life for patients. This Special Issue will provide a comprehensive overview of the latest developments in bladder cancer treatment and management, covering topics such as minimally invasive surgery, novel immunotherapeutic and targeted approaches, biomarkers for disease stratification, and advancements in imaging and diagnostics. Additionally, we welcome contributions discussing multidisciplinary strategies, clinical decision-making in muscle-invasive and non-muscle-invasive bladder cancer, and long-term surveillance protocols. By gathering original research, systematic reviews, and clinical perspectives, this Special Issue will enhance understanding of evidence-based and emerging therapeutic approaches, ultimately improving patient care.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi
