

## Special Issue

# Endoscopic Management of Pancreaticobiliary Disease

### Message from the Guest Editors

Nowadays, endoscopic procedures, including endoscopic retrograde cholangiopancreatography (ERCP) and endoscopic ultrasound (EUS), are essential in the diagnosis and treatment of pancreaticobiliary diseases. While rapid progress has been made in the development and use of these techniques, many unresolved issues still exist. Thus, it is necessary to identify these issues and conduct various well-designed studies. Moreover, in terms of treatment, new advanced methods, such as interventional EUS, cholangioscopic/pancreatoscopic-related procedures, balloon enteroscopy-assisted ERCP, and endoscopic radiofrequency ablation, have been developed in recent years, spurring significant progress. In order to further standardize and accelerate the use of these techniques, it will be necessary to accumulate evidence, refine existing techniques, and develop more sophisticated devices. In this Special Issue, we sincerely welcome authors to submit any type of paper, such as research articles, review articles, and case series studies, relating to the endoscopic diagnosis and treatment of pancreaticobiliary disease.

### Guest Editors

Dr. Tadahisa Inoue

Department of Gastroenterology, Aichi Medical University, 1-1 Yazakokarimata, Nagakute 480-1195, Japan

Dr. Kota Sahara

1. Department of Gastroenterological Surgery, Yokohama City University School of Medicine, Yokohama 236-0004, Japan  
2. Division of Surgical Oncology, Department of Surgery, The Urban Meyer III and Shelley Meyer Chair for Cancer Research, James Comprehensive Cancer Center, Wexner Medical Center, The Ohio State University, Columbus, OH 43210, USA

### Deadline for manuscript submissions

closed (25 July 2023)

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

---

### Editors-in-Chief

Prof. Dr. Emmanuel Andr s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
