

## Special Issue

# Intracranial Aneurysms: What Do We Know So Far?

### Message from the Guest Editors

The increasing accessibility of advanced imaging techniques has led to a rise in the incidental detection of intracranial aneurysms (IAs), marking a significant shift in the landscape of neurovascular care. As a result, the incidence of unruptured intracranial aneurysms has risen steeply, presenting increasing challenges in the decision-making process and the evaluation of treatment strategies. Contemporary management protocols mostly emphasize endovascular treatment over surgical approaches, reflecting the growing body of evidence supporting less invasive methods. However, long-term follow-up data after endovascular treatment remain limited, and a notable trend of aneurysm recurrence and an increasing need for re-treatment have been documented. In light of the global demand for results derived from multicentric analyses on long-term follow-up, and the subsequent definition of up-to-date recommendations, we welcome authors to contribute to the present Special Issue with original papers, multicentric studies and experiences, and systematic reviews exploring the dynamic field of cerebrovascular treatment, and the latest developments in the treatment of intracranial aneurysms.

## About the Journal

### Message from the Editorial Board

*Journal of Clinical Medicine* (ISSN 2077-0383) is an international, peer-reviewed, open access journal dedicated to advancing clinical and preclinical research. Our Editorial Board and staff are committed to delivering cutting-edge, timely, peer-reviewed articles spanning the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and impactful research articles, as well as reviews that are clinically significant and relevant to the full spectrum of medical disciplines. All full texts are archived in PubMed Central and indexed in SCIE (Web of Science), Scopus, PubMed, and other major databases. We invite you to submit your manuscript for publication, as well as join our community as a reviewer or reader online.

### Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of  
Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1  
(General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
