Clinical Advances of Breast Surgery and Reconstruction

Message from the Guest Editors

We are in the era of increasingly personalized surgery, and never as in the field of breast surgery is this concept fully founded. In the current multidisciplinary scenario in which the problem of breast cancer is addressed, the plastic surgeon plays a crucial role in finding the most appropriate reconstructive solution for each patient. In fact, he can give wide vent to his creativity combined with the most advanced knowledge and technologies to guarantee a custom-made reconstruction result that meets international standards, with which we are called to compare. Starting from locoregional perforating flaps for complete or partial autologous reconstruction, through pre-pectoral heterologous reconstruction with or without the use of ADM, up to the most complex microsurgical interventions, where a very high level of expertise is required. In this broad scenario, you are all invited to express your ideas and share your experiences, thanks to which we will make this Special Issue unique.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi
