New Advances in Minimally Invasive Surgery for Gynecologic Cancer

Message from the Guest Editors

In the dynamic landscape of gynecologic oncologic surgery, the past decade has witnessed significant advancements and innovations that urgently call for integration into minimally invasive treatment strategies. Personalized surgical interventions now gain support from advancements in molecular profiling, while patient safety stands to benefit from a renewed emphasis on anatomical research and a growing recognition of the role of the human factor in surgical outcomes. In light of these developments, we cordially invite researchers, clinicians, and experts in the field to contribute their research to our forthcoming Special Issue: 'New Advances in Minimally Invasive Surgery for Gynecologic Cancer'. Our collective objective is to curate an outstanding collection of articles that will make significant contributions toward a brighter and healthier future for women facing diagnoses of gynecological cancer. We welcome submissions encompassing a broad spectrum of topics.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
