

## Special Issue

# Bladder Cancer: Clinical Diagnosis and Treatment

### Message from the Guest Editors

Bladder cancer remains a significant global health challenge, characterized by high recurrence rates, diverse histological subtypes, and complex management strategies. Despite advances in molecular biology and imaging technologies, the early diagnosis, accurate risk stratification, and personalized treatment of bladder cancer remain areas of intensive research. This Special Issue aims to bring together high-quality original research and comprehensive reviews that address current challenges and innovations in the clinical diagnosis and treatment of both non-muscle invasive and muscle-invasive bladder cancer. Topics of interest include advances in urinary biomarkers, imaging modalities, cystoscopic technologies, risk assessment tools, and the evolving role of artificial intelligence. Additionally, we welcome contributions on emerging systemic therapies, immunotherapy, organ-sparing approaches, surgical techniques, and quality-of-life outcomes. The Special Issue will serve as a valuable resource for clinicians, researchers, and policymakers aiming to improve the prognosis and care of patients with bladder cancer.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
