

Special Issue

Cardiac Surgery: Clinical Advances

Message from the Guest Editors

This Special Issue aims to highlight the most recent clinical advances in cardiac surgery, providing a platform for showcasing innovations in surgical techniques, patient management, and postoperative care. It seeks to inform and inspire the medical community on the future direction of cardiac surgery practices. The issue will cover pioneering research, including the integration of robotics, 3D imaging, and AI-driven technologies in surgery. Additionally, it will explore advances in personalized medicine, regenerative therapies, and novel drug-delivery systems that enhance patient outcomes in cardiac procedures. We are seeking original research articles, review papers, and clinical studies that present novel insights or significant improvements in the field of cardiac surgery, considering adult, pediatric, and ACHD/GUCH procedures. Submissions that focus on the application of new technologies and surgical innovations are highly encouraged. Whether you are aiming to enhance patient outcomes or broaden your understanding of the field, this Special Issue is an essential resource for navigating the future of heart health.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France
