

## Special Issue

# Colorectal Surgery: Innovative Techniques and Enhanced Patient Outcomes

### Message from the Guest Editors

Colorectal surgery has experienced rapid advancements in recent years, with newer technologies and techniques increasingly becoming part of surgical practice. However, there are still many areas in coloproctology that remain underexplored, and the drive to clarify these uncertainties continues to grow, alongside the integration of innovations into clinical practice. The aim of this Special Issue is to provide a platform for critically evaluating how recent technological developments have influenced colorectal surgery outcomes, perioperative patient management, postoperative recovery, and the overall patient experience during surgery. Manuscripts are invited that critically assess the role of minimally invasive approaches, the application of artificial intelligence and big data in decision-making, perioperative patient optimization, the use of translational research in coloproctology, or the comparison of outcomes between various innovative approaches to colorectal diseases. For more information, please click [here](#).

### Guest Editors

Dr. Filippo Carannante

Colorectal Surgery Unit, Campus Bio-Medico University Hospital, Via Álvaro del Portillo, 200, 00128 Rome, Italy

Dr. Leandro Siragusa

Division of Colon and Rectal Surgery, Humanitas Research Hospital, Via Alessandro Manzoni, 56, 20089 Rozzano, Italy

### Deadline for manuscript submissions

20 August 2026

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
