

Special Issue

Clinical Advances in Gastrointestinal Infections

Message from the Guest Editor

Helicobacter pylori is the most prevalent chronic bacterial infection. Along with the worldwide antibiotic resistance trends, eradication rates are declining, while resistance rates of *H. pylori* are increasing, and eradication is becoming increasingly difficult. The International Agency for Research on Cancer and the World Health Organization have classified *H. pylori* as a class I carcinogen. *H. pylori* is the most important gastrointestinal infection; therefore, this Special Issue 'Clinical Advances in Gastrointestinal Infections' is dedicated to *H. pylori* infection. Following the COVID-19 pandemic and the widespread use of antibiotic therapies, we can expect new challenges in the treatment of *H. pylori* and the rise in antibiotic resistance. The suggested topics: - Challenges of treating a *H. pylori* infection following the COVID-19 pandemic. Part of this Special Issue has been dedicated to COVID-19 infections: - SARS-CoV-2-induced gastrointestinal diseases. I hope that you will find the proposed topics suitable for the Special Issue in JCM.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France
