# Recent Advances in Acne, Rosacea and Hidradenitis Suppurativa

### Message from the Guest Editors

Acne, rosacea and hidradenitis suppurativa are now common chronic inflammatory skin diseases. Clinical manifestations include papules, pustules, nodules, cysts and scars. It is most common in teenagers but can affect people of all ages. These conditions can lead to reduced self-esteem, anxiety and depression in patients, and pain can pose a challenge to an individual's emotional health and well-being. The disease progresses, persists and is difficult to treat, adding to the burden on patients. Various therapeutic interventions are available, including topical medications, oral therapies, biological treatments, surgery and laser and light therapy. We welcome papers in the form of original articles or reviews that provide exciting new insights into acne, rosacea and hidradenitis suppurativa, including but not limited to clinical activities related to diagnosis, treatment and management.

### Guest Editors

Dr. Aikaterini I. Liakou

1st Department of Dermatology and Venereology, Andreas Sygros Hospital, University of Athens Medical School, 161 21 Athina, Greece

Prof. Dr. Alexander Stratigos

1st Department of Dermatology and Venereology, Athens Medical School, National and Kapodistrian University of Athens, "Andreas Syggros" Hospital for Skin and Venereal Diseases, 106 79 Athens, Greece

### Deadline for manuscript submissions

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
