

Special Issue

New Insights into Kidney Transplantation

Message from the Guest Editor

In this Special Issue, we present a collection of articles exploring the forefront of kidney transplantation. This Special Issue discusses the latest advancements in immunosuppressive therapies, including new drug developments and strategies to enhance patient outcomes and long-term management. We examine the breakthroughs in genomics and biomarkers that are transforming the early detection and personalized treatment of transplant rejection. The Special Issue will extend to the application of artificial intelligence and machine learning in kidney transplantation, highlighting their role in optimizing post-transplant care. Furthermore, this Special Issue covers innovative surgical techniques such as optimization of organ utilization and preservation and minimally invasive and robotic-assisted procedures that are advancing recovery and reducing complications. Collectively, these articles offer a comprehensive overview of the pioneering efforts in kidney transplant care. They provide valuable perspectives for healthcare professionals and researchers dedicated to improving patient outcomes and addressing the critical challenges of organ shortages.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief
