

## Special Issue

# Clinical Advances and Challenges in Glaucoma and Glaucoma Surgery

### Message from the Guest Editor

The progress in glaucoma over the last decade has been remarkable. From emerging glaucoma genetic insights into the disease pathology to the development of new optimized minimally invasive glaucoma (MIGs) procedures, we now have numerous opportunities to better understand this disease as well as surgically intervene to effectively lower IOP. Moreover, the new development of and insight into potential neuroprotective compounds such as nicotinamide in clinical studies make us hopeful, especially in terms of the value of home IOP monitoring. These are being developed and implemented in ongoing clinical trials including an approach for lowering episcleral venous pressure (EVP).

We welcome authors to submit papers on the clinical advance of MIGs, neuroprotective and optic nerve perfusion innovations, stem cell and regenerative developments, as well as clinical cases, surgical insights and diagnosis and treatment advancements that can help move our field forward.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andr s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
