Extracorporeal Membrane Oxygenation (ECMO): Clinical Challenges and Opportunities

Message from the Guest Editor

Extracorporeal membrane oxygenation (ECMO) has gained popularity in various clinical emergencies and intensive care settings as a rescue tool for severe circulatory and/or respiratory failure. This proven rescue therapy is being increasingly used, but its further development and application remain challenging. The use of ECMO has entered a new phase during the COVID-19 pandemic. Managing ECMO is challenging due to the risks and possibilities faced by patients. In this Special Issue, we plan to collect information on important ECMO-related complications, including, but not limited to, cardiovascular–pulmonary disease-related acute organ support and chronic support, as well as the publication of articles and reviews on emerging challenges and new strategies for further communication.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
