Updates on Antiphospholipid Syndrome

Message from the Guest Editor

Antiphospholipid syndrome (APS) is an immune system disorder that increases the risk of thrombosis and pregnancy morbidity. It must be suspected in particular in young patients with repeated thrombosis. Although the syndrome was first described more than 40 years ago, it is not yet clear what the etiology is of these antibody abnormalities, nor their exact pathophysiological characteristics. Moreover, although current standard treatments are effective in most cases, there is still a considerable number of patients that present the recurrence of clinical manifestations. The aim of this Special Issue, which invites the submission of original papers and reviews, is to provide an updated overview of innovative advances in diagnostics, pharmacotherapy, and complications of APS to prevent its deleterious consequences. Keywords

- antiphospholipid syndrome
- antiphospholipid antibodies
- beta2-glycoprotein 1
- systemic lupus erythematosus
- immunosuppressive therapy
- thrombosis
- diagnosis
- pre-eclampsia
- preterm birth
- fetal death

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
